February 13, 2012

NEW MEXICO BULLETIN NO. 430-12-1

SUBJECT: SOI – 2012 SOILS PLANNER

TO: All Offices

Purpose. To distribute the 2012 Soils Planner.

Expiration Date. December 31, 2012

We are pleased to announce the release of the 2012 Soils Planner. The 2012 Soils Planner celebrates the USDA's accomplishment and its commitment to the sustainability of the Nation's soil resources through the National Cooperative Soil Survey.

This year, as we observe USDA's 150th Anniversary, it seems particularly appropriate to highlight the Department's efforts to sustain and protect our Nation's natural resources and to provide for the well-being of our citizens. The USDA Natural Resources Conservation Service (NRCS) strives to help people help the land by understanding our soils and their importance to conservation worldwide. The Soil Science Society of America (SSSA) is dedicated to advancing the field of soil science globally and educating the public on the value of soils.

The SSSA has partnered up with USDA – NRCS in development of this annual Soils Planner and celebrates 150 years of achievements of the USDA. If you have any questions please email chrishelle.jackson@nm.usda.gov.
