

**New Mexico- (Española Field Office)
FY 2003 Ranking Criteria Worksheet - Irrigated Cropland**

Applicant _____ Farm No. _____ Tract No. _____ CMS Field No's. _____ Date _____

Tribal Land _____ Non-Tribal Land _____ Preliminary Rating _____ Final Rating _____

1. Water Quantity - Potential Points (40% of Total) - 80 Potential Points

Irrigation Efficiency - Use FIRS to Evaluate			Potential Points	Benchmark Points	After Points
% Efficiency	% of Area in Contract before Treatment	% of Area in Contract After Treatment			
1-20%			0		
21-30%			10		
31-40%			20		
41-50%			30		
51-60%			40		
61-70%			50		
71-80%			60		
>80%			80		
1. Water Quantity			Total		

2. Water Quality - (25% of Total) 50 Potential Points

A. Surface Water Pollutants - 30 Points Maximum

There is a probability that runoff water from irrigated fields contains sediment, salt, pesticides, and/or nutrients (or other associated chemicals). Treatment is needed to prevent these pollutants from entering live waters, or re-entering a shared irrigation system. Points will be awarded based on distance from the end of field to the nearest live waters or re-entry point into a shared irrigation system. If there is no run-off, after points will be 0.

Distance of Surface Run-Off to Live Water	Points	Benchmark	After
<100 Ft.	30	0	
101 - 500 Ft.	20	0	
501 - 1,320 Ft.	10	0	
1,320 - 2,640 Ft.	5	0	
>2,640 Ft.	0	0	
A. Surface Water	Total		

B. Ground Water Pollutants - 20 Points Maximum

There is a probability that irrigation water containing salt, pesticides, and/or nutrients (or other associated chemicals) is leaching into the ground water. Treatment is needed to prevent these pollutants from contaminating ground water, through leaching and direct return flow into wells. Points to be awarded based on depth to the water table, or elimination of any direct discharge to ground water (regardless of depth to water table).

Depth to Water Table	Points	Benchmark	After
1 - 10 Ft or elimination of any direct discharge into ground water.	20	0	
10 - 50 Ft.	10	0	
50 -100 Ft.	5	0	
>100 Ft.	0	0	
B. Ground Water	Total

FY 2003 Ranking Criteria Worksheet - Irrigated Cropland

Applicant _____ Farm No. _____ Tract No. _____ CMS Field No's. _____ Date _____
 Tribal Land _____ Non-Tribal Land _____ Preliminary Rating _____ Final Rating _____

3. Selected Conservation Practice(s) - (25% of Total) - 50 Potential Points

Any practice used in the ranking criteria and intended to be included in the conservation plan of operations must be cost-shared or have an incentive payment. Higher priority (value) should be given to those practices which address multiple resource concerns, are cost effective, and have longer life spans. Use the Quality Criteria in the FOTG to establish the practices that have an impact on the identified resource concern.	Potential Points	Percent of need to be installed.	Points
Soil Erosion			
Irrigation System Sprinkler (442) or Irrigation System Drip Trickle (441)	5		
Irrigation Land Landleveling (464) or Land Smoothing (466)	5		
Water Quality			
Irrigation Land Landleveling (464) or Land Smoothing (466)	5		
Irrigation System Sprinkler (442) or Irrigation System Drip Trickle (441)	5		
Water Quantity			
Irrigation System Sprinkler (442) / Drip Irr. (441) / Irrigation Water Conveyance (428)	5		
Irrigation Land Landleveling (464) or Land Smoothing (466)	5		
Air			
Pasture and Hay Planting (512)	5		
Plants			
Pasture and Hay Planting (512)	5		
Animals			
Windbreak/Shelterbelt Establishment (380)	5		
Pasture and Hay Planting (512)	5		
3. Selected Conservation Practices	Total		

4. Other Considerations - (10% of Total) - 20 Potential Points

Below are some suggested, not required, criteria. If there are other criteria the D.C. wants to recommend based on LWG advice, please include them here.	Potential Points	Benchmark	After Points
A. At risk species are in the area and the contract will enhance habitat for the species.	4	0	
B. Treatment of this land could have a beneficial impact on a 303d listed stream segment.	4	0	
C. Treatment of this land could enhance the benefits of an active sec. 319 project.	4	0	
D. This land is within a proposed sec. 319 project.	4	0	
E. This land is involved with other conservation enhancement programs such as Partners for Wildlife, NMG&F, etc.	4	0	
4. Other Considerations	Total		

 Designated Conservationist
