

**NATURAL RESOURCES CONSERVATION SERVICE  
CONSERVATION PRACTICE SPECIFICATION**

**472 - USE EXCLUSION**

**I. SCOPE**

The work shall consist of installing barriers, signs, and/or other devices and may include managing operations to exclude traffic of persons, livestock or vehicles from an area as shown on the plans, or drawings, or as staked in the field.

**II. BARRIERS**

The designated area to be excluded shall be guarded from traffic by such barriers or signs as may be specified on the Job Sheet.

Additional fencing shall be installed when specified on the Job Sheet.

**III. DURATION OF EXCLUSION**

The period of time for which exclusion is necessary to achieve the purposes shall be the period specified on the Job Sheet.

**IV. BASIS OF ACCEPTANCE**

Periodically during the period of exclusion, on-site visits will be conducted to determine if the method of exclusion is effective, and at the end of the period of exclusion to determine if the purposes for exclusion were achieved.
