

**NATURAL RESOURCES CONSERVATION SERVICE
CONSERVATION PRACTICE SPECIFICATION
STREAMBANK PROTECTION**

CODE 580

Measures and construction methods that enhance fish and wildlife values shall be incorporated as needed and practical. Special attention shall be given to protecting and maintaining key shade, food, den trees, and visual resources and to stabilizing disturbed areas.

Removal of any trees and brush shall be done in such a manner as to avoid damage to other trees and property.

Disposal of trees, brush, and other materials shall be done in such a way as to have the least detrimental effect on the environment.

Construction operations shall be carried out in such a manner that erosion and air and water pollution are minimized and held within legal limits.

The completed job shall present a workmanlike finish.
