NEW MEXICO BULLETIN NO. 210-10-4

SUBJECT: ENG –ENGINEERING REFERENCES AND MANUAL

TO: All Employees

Purpose. To inform employees of new National and State policy regarding engineering practices and drawings.

Expiration Date. September 30, 2010

In July, 2010, the Third Edition of the Engineering National Engineering Manual was released. A copy of this manual can be accessed through the eDirectives System.

The current New Mexico Supplements to the National Engineering Manual remain in effect until superseded.

On the New Mexico NRCS website, under Technical References and Engineering, please review the links for Precipitation data and NM Drafting. These should be helpful links.

Also the West Region has set up a sharepoint for AutoCAD® drawings. These standard drawings can be found at:

<https://nrcs.sc.egov.usda.gov/st/wntsc/coreteam/engineering/SCE/Lists/CADD%20Drawings/AllItems.aspx>. If you have any drawing that you would like to see on this site, forward it to State Conservation Engineer Roger Ford.

Please contact Roger Ford at (505)761-4430 if you have any questions.

A handwritten signature in black ink, appearing to read "Dennis L. Alexander".
