NEW MEXICO BULLETIN NO. 180-12-01

SUBJECT: COMPREHENSIVE NUTRIENT MANAGEMENT FORMAT

TO: All Offices

Purpose. To announce the updated procedure for the New Mexico Comprehensive Nutrient Management Plan format.

Expiration Date. December 31, 2012

The New Mexico Comprehensive Nutrient Management Plan format and procedure has been updated and placed on the website at <http://www.nm.nrcs.usda.gov/technical/water/nmafo.html>. Any Comprehensive Nutrient Management Plan (CNMP) developed by a New Mexico NRCS employee, partner employee, or technical service provider (TSP) will be completed using the most current version of the Manure Management Planner (MMP) and the "smart document" that automatically creates a CNMP plan, as a Word document, based on data input into MMP for a specific producer. The Smart Document must be downloaded from the website. The additional downloadable files on the website are for information and reference:
