

## **Student Career Experience Program**

Name:

Duty Station:

- You are to keep a daily written log of your activities.
- At the end of every month, have your supervisor initial and date your log. Then fax your activity log to your Team Leader or Section Head at fax number:

You are to present a report about your summer to the state leadership in August. The report should be five to ten minutes in length. You may develop a PowerPoint presentation if you like. Creativity is Encouraged and Expected!

### **Be sure to include the following topics in your report:**

1. A brief summary of your background, both personal and academic.
2. Your career goals once you graduate.
3. Describe at least ten activities that you were asked to do during your work assignment this summer. For each activity, address the following criteria:
  - a. What situations provided a challenge to your technical knowledge of the subject matter?
  - b. What situations this summer gave you an opportunity to apply what you have been learning at school to a real life situation?
  - c. Which situations helped you to understand how the activity contributes to the administration of NRCS programs to the public?
  - d. What situations helped you to understand how the activity plays a role in conservation planning?
  - e. What helped you understand whether or not you enjoyed doing the activity and why?
