**AGRONOMY TECHNICAL NOTE NO. NM-70**

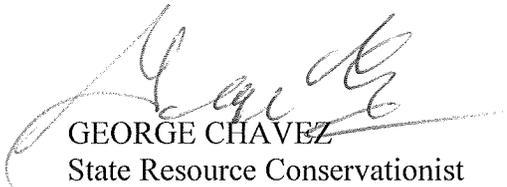

**SUBJECT:** ECS – Revegetating Riparian Areas in the Southwest “Lessons Learned”

**Purpose:** To distribute information about the considerations, preparations, and planting methods used for revegetating riparian areas in the Southwest.

**Effective Date:** Effective when received.

**Filing Instructions:** File in office reference library also maintained on New Mexico NRCS Web page.

This technical note was prepared by the Los Lunas Plant Materials Center. It presents information about the considerations, preparations, and planting methods used for revegetating riparian areas in the Southwest that have proved to be successful. Additional copies of the document can be obtained online at <http://www.nm.nrcs.usda.gov/technical/tech-notes/pmc.html>
