WATER QUALITY TECHNICAL NOTE NO. 21

SUBJECT: WATER QUALITY – IRRIGATION WATER ANALYSIS AND INTERPRETATION

Purpose: To distribute spreadsheet on irrigation water analysis and interpretation.

Effective Date: Effective when received.

Filing Instructions: File in office reference library also maintained on New Mexico NRCS web page.

Explanation: This spreadsheet, prepared by NMSU and NRCS, provides guidelines for interpretation of irrigation water analysis. This is to be used in conjunction with 590 Job Sheet for Nutrient Management interpretation. Additional copies can be obtained online at http://aces.nmsu.edu/pubs/_water/Guide_W-102.pdf. If you have any questions about use of this spreadsheet, please call the State Water Quality Specialist, (505) 761-4400.

A handwritten signature in black ink, appearing to read "George Chavez", with a long horizontal flourish extending to the right.

GEORGE CHAVEZ
State Resource Conservationist
